

CURVEYOR

FIT TIGHT TURNS AND TRANSFERS

The Curveyor curved belt conveyor fits in tight angles and spaces of your food processing plant. Its powered belt turns keep your product moving around turns, corners, and other equipment with minimal maintenance. Tight infeed and outfeed transfers ensure product orientation and integrity with no damage or loss in gaps. The Curveyor is designed for quick yet thorough cleaning and simple maintenance.

- Available with 30-180 degree turn radius
- Bi-directional product flow
- Center-driven powered belt turns
- Tight transfer 5/8" or 7/8" rolling nosebars for smooth, damage-free transfers
- Food-grade sanitary design with open frame and simple belt changes in 30 minutes
