

TROUGHVEYOR

RELIABLE CONVEYING FOR LOOSE PRODUCTS WITHOUT SPILLAGE

The Troughveyor trough belt conveyor moves bulk loose product throughout your food processing plant. Its positive drive belt system gives you a more reliable and sanitary operation. The Troughveyor offers rail or roller support systems, ensuring product stays centered and eliminating spillage. Its open frame with a cantilevered belt and no fixed guards allows for quick, yet thorough cleaning and tool-less belt changes.

- Positive drive belt system – hygienic, reliable, long-lasting
- Horizontal, incline, and decline operation
- Product stays centered at high rates and long distances – eliminating loss
- Food-grade sanitary design with open frame, cantilevered belt, belt lifts and more for tool-less belt changes
